...KARAZIM'S NEW PROJECTS

GOD'S GARDEN

A huge project...but work is underway on nine acres of land located in west Grand Bahama being prepared for this farm. Thanks to University Baptist Church for adopting this project headed by David Lane.

There was such an increased demand for food, but because of the economy, the giving was decreased, so we got creative.....

Mini Raised Gardens in the various communities.. And the kids are supervising the gardens and doing a GREAT job at it. They are harvesting cucumbers, pumpkins, tomatoes....

Woodside Presbyterian surely worked hard that week...Friendships were formed & lots of tears at the end..Fario is doing great with the garden....

FISHING PROJECT

In our quest to empower residents ,we have launched a commercial fishing project and training is underway. Thanks to Terry and the late Connie Williams!

For all of you who met me, Karazim's youngest missionary. I love you! .. "Saes Carey".....

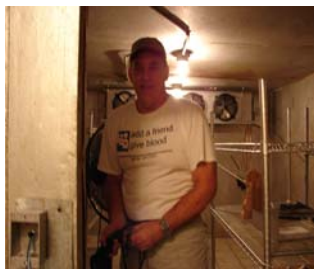

During Spring Break and Summer we began light repairs, construction, painting and gardening in Wildgoose Yard, located in Pinders Point. We have named this project Sunset Village .

Forest & Virginia

"Hey look at us, we have fun doing electrical work on mission trips..."

Dave

"Wow this walk-in freezer at the feeding center is really working....finally..."

Raoul & Barry Charier

"Hey Barry, look what I found! Some liquid to put somewhere.. This is great for missions..."

Man painting in the hot sun sure is hard...
